

FOOD SAFETY/CHEMISTRY POSTDOCTORAL FELLOWSHIP

The Division of Analytical Chemistry, Office of Regulatory Science of the U.S. Food and Drug Administration's Center for Food Safety and Applied Nutrition (CFSAN) seeks a postdoctoral fellow to participate in our food safety/food defense research program. The primary research goals are the development and validation of analytical methods using mass spectrometric techniques for the analysis of foods, food additives and dietary supplements for potential contaminants and adulterants. The postdoctoral fellow will contribute to research projects that are components of agency-wide, on-going food safety and food defense programs, which support important FDA policy and regulatory decisions.

Candidates should have a Ph.D. degree in Analytical Chemistry, Food Chemistry, or a related field, be proficient in analytical method development, and have experience with gas chromatography, liquid chromatography, and mass spectrometric techniques. Experience with olfactory and flavor chemistry is desirable.

U.S. citizenship, permanent resident status or a valid J1 Visa is required (F1 with OPT is acceptable until a J1 is obtained). Please email your CV to: Dr. Susan Genualdi, US FDA/Center for Food Safety and Applied Nutrition, College Park, MD 20740. susan.genualdi@fda.hhs.gov
